ARC Discharges GE Shunt Reactors at the Port of Galveston

Galveston, Texas – American Roll-on Roll-off Carrier’s *M/V ARC Resolve* unloaded 3 x GE Shunt Reactors and accompanying accessories earlier this week at the port of Galveston.

The reactors, each weighing around 60 metric tons (MT), were loaded onto the *ARC Resolve* at the port of Santos, Brazil and will ultimately be used in support of the U.S. Department of Energy’s (DOE) Bonneville Power Administration (BPA) grid modernization project in the Pacific Northwest.

“ARC is proud to partner with both General Electric and the Department of Energy in assisting the Bonneville Power Administration in achieving their long-term strategic plan,” said Chris Barber, Head of Preference Cargo Sales.

The BPA is a federal agency created by an act of Congress in 1937 to market electric power from the Bonneville Dam on the Columbia River and to construct facilities necessary to transmit that power. These reactors will be used to upgrade/modernize existing facilities outlined in the BPA’s 2018-2023 Strategic Plan - the strategic plan describes a series of actions the BPA is taking over the next several years to modernize assets and system operations, provide competitive rates, and to meet transmission customer needs efficiently and responsively.

M/V ARC Resolve is a pure car/truck carrier (PCTC) 199m long with a beam of 32.26m operating under the U.S.-flag. She has a 14.15m wide and 7.04m high stern opening, with a stern ramp rated for cargo weighing up to 240 MT. *ARC Resolve* is currently sailing in and out of the base port of Galveston, Texas to various ports in Mexico, Central and South America, alternating between the West Coast of South America and the East Coast of South America to Brazil. For current sailing schedules, please visit www.ARCshipping.com/schedule.

About ARC

ARC is the largest U.S.-flag roll-on roll-off (Ro-Ro) carrier in international trade. The company provides American-owned, managed, and crewed Ro-Ro shipping and intermodal services committed to the requirements of the Department of Defense, other U.S. government departments and agencies, and commercial customers. For information on how ARC can handle your cargo, please visit us at: ARCshipping.com or send an e-mail to: contact@ARCshipping.com. For media inquiries, please send an email to media@ARCshipping.com.
