ARC Transports Multiple U.S. Army Logistics Units from Szczecin, Poland to Jacksonville, Florida

Jacksonville, Florida – American Roll-On Roll-Off Carrier (ARC) transported multiple U.S. Army Logistics units onboard M/V *Honor* from Szczecin, Poland to Jacksonville, Florida. These units were redeploying after their six-month rotation in support of Operation Atlantic Resolve with NATO allies. The shipment consisted of more than 400 pieces of equipment, which included 240 vehicles. These Active Duty, Reserve, and National Guard units will ultimately return to their home stations at Fort Hood, Texas; Lansing, Michigan; Ogden, Utah; and Billings, Montana.

Tim Fletcher, ARC Manager for Customer Care stated, “This is just another great example of the fantastic level of cooperation and teamwork between ARC, the military and the Port of Jacksonville – ensuring that no cargo was damaged during the operation and that accurate in-transit visibility was provided to Surface Deployment and Distribution Command and the redeploying units.”

The M/V *Honor* is one of the most capable commercial vessels in the global fleet with a 120-metric ton stern ramp, a main deck height of 15 feet (4.6 meters), and 216,171 square feet of militarily useful capacity.

About ARC

ARC provides Government Services including global logistics and shipping services. ARC and its U.S. affiliates own and manage the largest U.S.-flag roll-on roll-off (Ro-Ro) fleet. This includes providing American-owned, managed, and crewed Ro-Ro shipping and intermodal services committed to the requirements of the Department of Defense, other U.S. Government departments and agencies, and commercial customers.
